WHAT CATARRH IS

It has been said that every third person has catarrh in some form. Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good. To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building-tonic, free from alcohol or any harmful drugs. Try it. Scott & Borne, Bloomfield, N. J.

Powers Came

There was much talk about the coming of Caleb Powers and what was to be the attitude of the people here towards him. Some of the people remained away. They evidently thought this the right thing to do and did so. That was alright, but most of the people remained and heard what the visitor had to say. Those who were not prejudiced against Powers found his talk rather entertaining. A man of national prominence as a member of Congress and little or nothing against him excepting for the unfortunate affair in which he was never directly connected and which under the circumstances of party and sectional feeling he could not otherwise than have been convicted of the crime of which he was charged, whether either right or wrong, there did not seem to any reason why the majority of people could not stay and hear him and they did.

The Central Guard, referring to knockers generally editorially says: "We sympathize with the man who opposes high taxes, and we have a kindly feeling for the man who does not get interested in a public enterprise that does not personally interest him, but we have our ax out for the fellows who want to kill or cripple every enterprise that does not originate with them or which does not promise them a great big profit in dollars and cents. We don't have any sort of a kindly feeling for the fellow who opposes every moment looking towards the advancement of the city's institutions or the city's general well being."

Music Hath Charms

When Shakespeare wrote that music had charms to soothe the savage breast, he evidently had not been to Keytesville and seen the colored population. There was lots of music Saturday night (maybe too much ragtime) for at least, about 11 o'clock the colored male population of the town with a few exceptions possibly was gathered at the corner near the Keytesville bank building and were going round and round. Several negro woman, leaving the scene, were mighty sarcastic because of the fact they did not see a good fight which they said they would relish very highly.
